Class: _____

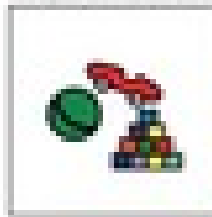

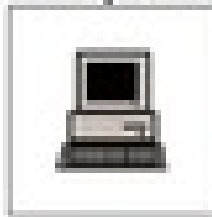

Sharing with My Friends

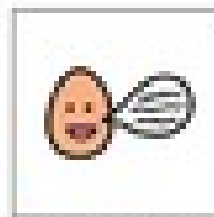

I have a lot of friends at school. We do lots of things together.

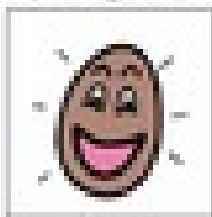

When I am with my friends, I need to share

I can give them a turn on the computer, let them play with my toys, or give them a turn on the swing.

I say, "Here you go, your turn." This makes my friends feel happy.

When my friends are happy, I am happy too. We have can keep playing together.
