

# Fingerprint Flags Craft

## You will need:

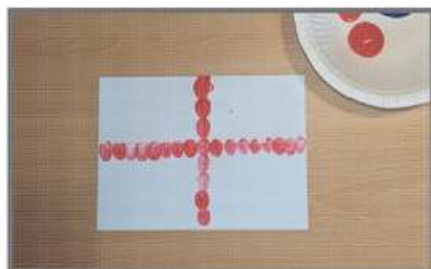

- White A4 card
- Scissors
- Blue and red paint
- Lolly stick
- Sticky tape

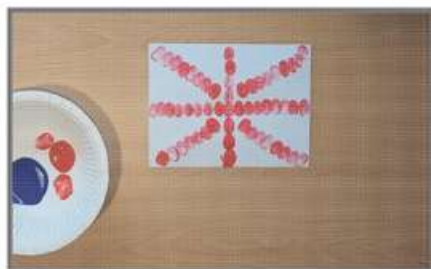

1) First, fold the white card in half.

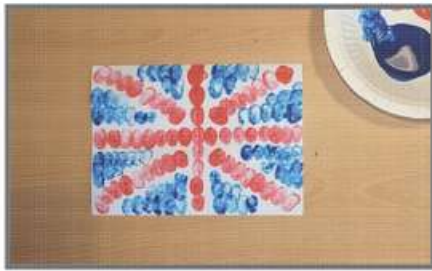

2) Next, cut down the crease in the folded card so that you have two equal halves.

3) Dip your finger into the red paint and press it down onto the white card. Repeat this step, making a red cross.

4) Use the red paint to make four diagonal lines moving into the centre of the cross.

5) Clean your finger and dip it into the blue paint.  
Make triangles in between the red lines.  
Allow the paint to dry.

6) When the paint has dried, turn the flag over.  
Place the lolly stick on one side of the flag so that part of it is not over the card.  
Secure the lolly stick onto the flag using a strip of sticky tape.

You have made a lovely, Union Jack hand held flag that is completely unique to you with your fingerprints.  
These flags would be the perfect decorations for your Platinum Jubilee celebrations, waved excitedly during the party.
