

Father's Day Footprints

You will need:

- Father's Day Footprints Template
- A4 paper
- A4 card (coloured)
- Scissors
- Glue stick
- Poster paint
- Paintbrush

1) First, print out the Father's Day Footprints Template onto A4 paper. There is a choice of right foot or left foot.

2) Carefully, cut along the cut lines of your template, using scissors.

3) Next, use the paintbrush to paint the sole of your foot with poster paint. As there is a left foot and a right foot on the template, you should paint the same side foot as the template you have chosen.

4) Next, carefully push your painted foot onto the card to make a print. Wipe the paint off of your foot. Leave the print to dry completely.

5) While the paint is drying, take your piece of A4 coloured card and pinch a fold in the top to mark the centre of the card. The fold only needs to be a small fold so doesn't need to be the whole length of the card.

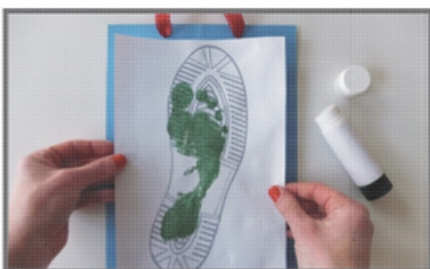

6) Line up the small fold mark with the middle of your hole punch and punch 2 holes in the top of your piece of card.

7) Thread a piece of ribbon through the 2 holes.

8) Tie the ends of the ribbon into a bow. Carefully, trim the ends of the ribbon with scissors.

9) When the print is dry, stick the footprint onto the piece of coloured card, using the glue stick.

Your footprints are ready to gift and hang!
